Comments for Public Posting: I oppose the privatization of the public slope park on Maltman Ave. i live on Maltman and use that for daily walks and exercise up and down the slope. It's a part of the community and keeps the neighborhood beautiful. Please keep public interests at heart and do not giveaway this space to developers. Keep silverlake special.

Comments for Public Posting: I don't understand why you are turning this public park into a private development site. The neighborhood loves this area and it's a great place to walk and be outside. Please don't destroy one of the last remaining spots of green around here. It's disgusting that you would turn on the public for a private development contract.

Comments for Public Posting: I oppose the privatization of slope park! This public space is for the community to enjoy, without this park the neighborhood loses a place where all walks of life and come together and enjoy the natural habitat. There are birds and animals that inhabit this park! It is detrimental that this park be free of construction and destruction of nature.

Comments for Public Posting: Slope park is a valuable part of our neighborhood. In an area with little public green space, i really appreciate the bit of green walking space that is close enough to my residence that I frequently walk my dog there. In a rapidly urbanizing city, we need all the green space we have. It would definitely sadden me to see this neat little slope park go into private hands.
