Council File No: 24-1371

Comments for Public Posting: I urge the City Council to support the appeals by the Santa Monica Mountains Conservancy, MRCA, and Hillside Federation regarding the proposed project at 3003 Runyon Canyon Park. Approving the construction of a second 6,000-square-foot home on a mountaintop property that already has a residence sets a concerning precedent and threatens one of Los Angeles' most valued public parks. Given the increasing risks of wildfire and the importance of preserving open space, this project is not in the public interest. I ask the Council to prioritize the protection of our parkland and reject this proposal.
