Comments for Public Posting: <https://www.latimes.com/opinion/story/2023-02-06/no-digital-billboards-metro-la> I write as a concerned citizen of the Hollywood Hills area of Los Angeles, to please ask you to prevent the further building and implementation of Digital billboards along the Cahuenga pass, or any other thoroughfare in our city. Please reference this LA times article (link above). Not only are digital billboards an aggressive intrusion of light on a city that already is oversaturated with it, but they are also a visual hazard and distraction to motorists. We need to reduce traffic accidents, reduce visual distractions, protect the integrity of our natural landscape, and reduce light pollution in our city. There are absolutely better ways to fund bike and pedestrian safety, and to generate ad revenue for the city. Respectfully yours, James Keller Wortham
