**Comments for Public Posting:** Council File: 14-1371-S13 December 3rd, 2024 Housing is a Human Right has its headquarters located in council district 13. We are writing in strong support of the motion introduced by Councilmember Curren Price and co-sponsored by Council Member Katy Yaroslovsky to amend the Los Angeles Living Wage Ordinance and the Los Angeles Hotel Worker Minimum Wage Ordinance requiring \$25/hr now & \$30/hr by 2028, quality health care, and worker protections, as a matter of economic justice, housing justice, and public safety. Housing is a Human Right fully supports this ordinance, recognizing the importance of affordable housing for tourism workers in Los Angeles. As an organization dedicated to advocating for affordable housing, we understand the challenges faced by these workers in meeting their basic needs and supporting their families. It is crucial that they have access to housing near their workplaces, as they play an integral role in the city's economy. By raising their minimum wage, we can offer a significant solution to enable these individuals to remain in Los Angeles, where their services are greatly needed. The tourism industry has made a recovery from the pandemic with billions of dollars of public investment and is assured a future of growth with major events like the Olympics attracting visitors from around the world to our beautiful city. It's time for the workers at LAX and hotels to get their fair share of the profitable tourism industry that wouldn't be possible without them. If our community members are not making enough money to afford rent, they will continue to be displaced or risk losing their homes. LA already has the highest number of unhoused people in the nation, and it's unacceptable that the workers who are the backbone of a major economic engine are disproportionately rent-burdened. With the current state of the housing crisis and rising cost of rent, families need to earn enough money to live where they work. Tourism workers were among many frontline workers and communities of color who bore the brunt of the pandemic, yet many still lack quality health care. We're calling for the council's support to ensure our tourism workers receive family-sustaining wages, quality health care, and workplace protections. Our tourism workers are heads of households, many of them are single parents, and they're our neighbors, friends, and family members. Los Angeles should be a

place where everyone can thrive. Respectfully, Betty
