

GOVERNMENT EFFICIENCY & AUDITS

MOTION

The City of Los Angeles operates over 25 departments, each varying in size and offering diverse services to its residents. It is crucial to ensure these departments remain efficient and continue to evolve with the intentions set by the City Council, and the Mayor, when they were first established.

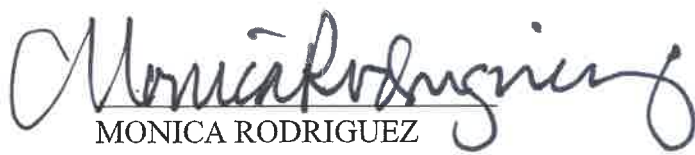

Given the City's current financial constraints, it is necessary to audit and review each department's role in providing core City services. This will help ensure that the City is using its limited resources effectively, while also ensuring that the City is meeting its goals and objectives efficiently.

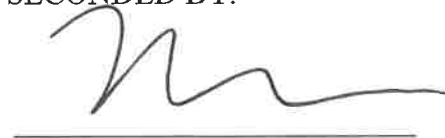

Identifying efficiencies is essential for local governments to manage taxpayer money effectively, improve financial stewardship, and promote transparency. By performing these audits, the City can uncover cost-saving opportunities and reinvest savings into critical services, improve service delivery, and enhance overall performance.

I THEREFORE MOVE that the City Council REQUESTS the City Controller, with the assistance of all Chief Legislative Analysts and all departments, to AUDIT City Departments' and offices key functions and identify any duplication or overlap of services that may exist in non-charter mandated departments and report to the Government Efficiency, Innovation, and Audits committee. This audit should differentiate services that are special funded and services that are General Fund funded.
