Comments for Public Posting: As a resident and stakeholder of Eagle Rock for over 50 years, I strongly urge the Planning & Land Use Committee (PLUM) to recommend to the City Council that they require the Planning Department to rescind the decision to allow a Verizon cell tower on Colorado Blvd. The residents of Eagle Rock deserve to have a public hearing before such an impactful decision is made on our neighborhood. I trust that Mr. Harris-Dawson will do the right thing and protect the interests of the residents and taxpayers of Eagle Rock by placing Councilman De Leon's motion on the Committee's agenda. Thank you for your consideration, Dina Ragusa Eagle Rock resident since 1970

Comments for Public Posting: Dear Committee Chair Harris-Dawson, With regards to the cellular tower construction that is planned for 1731 Colorado Blvd., I would ask that the PLUM Committee please review this case ASAP. I would also urge the Committee to recommend that the Planning Department rescind its decision to approve this project without significant public hearings. Considering the size of this tower and its proximity to many homes, community members should have the right to weigh in. It seems reasonable that the location in the service area in question and the size/appearance of the tower would be open to community input, since we will be living with this for many years. Please consider agendaizing this matter for the PLUM Committee as soon as possible. Respectfully, Natalie Freidberg

Comments for Public Posting: As a resident of Argus Drive and member of the eagle rock community, I care deeply that the city PLUM committee correct the erroneous decision made by the city planning department regarding the construction of a Verizon cell tower on the corner of Argus Drive. I believe the cell tower will destroy some of the natural beauty of eagle rock and send the wrong message that our land is ripe for the taking by large corporations. It is also deeply concerning that decisions that affect the public like this are passed without any due process of public hearing.

Comments for Public Posting: I am writing to express my strongest opposition to the proposed cell tower project on Colorado Blvd. This project blatantly disregards the Colorado Blvd. Specific Plan, a crucial piece of legislation established to safeguard our community from irresponsible and incongruous developments precisely like this. The residents of Eagle Rock deserve to have their voices heard on matters that directly impact our neighborhood. We have a right to participate in a public hearing and express our concerns. Also, the project directly contradicts your commitment to the beautification and preservation of Eagle Rock. A towering, unsightly cell phone structure would inflict lasting damage on the character of Colorado Blvd. Beyond these objective points this project deeply troubles me because as a dedicated and caring resident of Eagle Rock, and more specifically Argus Drive, I feel violated by Verizon and the city of Los Angeles. The sneaky, shoddy handling on this important issues has already eroded trust that will take time to be restored only after this decision is reversed and we've had our say. I urge you to reject this proposal and prioritize the well-being of our community. We deserve better than this. Thank you for your time and consideration.
