Comments for Public Posting: Dear Mayor Bass, I support the mayor's emergency declaration to address the homeless crisis across Los Angeles. Lobby groups such as Fix the City will rather bury their heads in the sand and argue against a dictionary as 7000+ renters becomes homeless. We have Los Angelenos living in tiny quarters, living in second jobs, living in motels, living on couches, living in shacks, living in vehicles, and on the streets. Do not allow Fix the City change the definition of illegal or any legal term based on their "feelings." Whenever we let them change the meaning of each institutions, we allow them to create a kangaroo courts which harms all other Angelenos who make this city strong.
