RE: 800 N La Jolla Ave

Case #: 817761

I am protesting the placement of lien on the property at 800 N La Jolla Ave.

Since this property, 800 N La Jolla Ave, has been abandoned, the City of Los Angeles decided to put up fencing around the house to keep out the homeless. However, as seen in the images attached, this fencing has instead exacerbated the issue of the homeless entering the property. It is now drawing in more of the homeless population into the neighborhood, they are jumping the fence, and living inside the house.

The fencing is over eight feet tall. The only people who are climbing it are homeless and vagrants. When the city built the fence, they left no option for the police to enter. The location has become a fortress for vagrants who can live there as freely as they want as the fence keeps law enforcement out and prevents anyone from entering the property except them.

The neighborhood has become less safe due to the fence and The City of Los Angeles is responsible for the lack of ability for law enforcement to do anything.

Although we are no friends of Mrs. Anderson, this fencing was put up by the City of Los Angeles, not Mrs. Anderson. The city has made our neighborhood unsafe, the quality of life is suffering, and people are less likely to leave their house since this property attracts vagrants and mentally ill people. It is unjust to make anyone pay for the fence. This property needs to be declared a nuisance and demolished.

Thank you very much.

Sincerely,

William Kroger
