## TRANSPORTATION

### MOTION

At the start of the COVID-19 pandemic the City of Los Angeles adopted many policies that helped residents shelter in place. Many were for parking enforcement to ensure if a resident was staying inside due to a positive test they would not have to be concerned with where their vehicle(s) were parked.

In June of 2021 the State of California, the County of Los Angeles, and the City began to lift many of the policies that were modified due to COVID-19. However, today there are still parking rules that are not fully enforced creating confusion and frustration with residents.

California Vehicle Section 22507 allows local municipalities to restrict parking of vehicles that are immediately adjacent to residential buildings, which may constrict travel lanes and create dangerous situations. Since 2017 the City has created, by Council Resolution, 280 areas of the City that prohibit oversize vehicles from parking between the hours of 2AM - 6 AM.

Residents of the City of Los Angeles deserve clarity when resolutions are adopted and expect consistent enforcement. Having posted signs restricting parking without enforcement leads to frustration in communities and further erodes trust in the City.

I THEREFORE MOVE that Council directs the Department of Transportation to begin enforcement of all Oversize Vehicle Restricted Areas in the City in 30 days.
