Comments for Public Posting: Ya'll are trying to suppress freedom of speech cause you can't take the heat? Ok, I'll put it this way. I am **TOTALLY** on board with banning the n-word, specifically in reference to addressing a person. I agree that's wrong. But y'all, seriously? Cunt is **NOT** something that should be banned. It's common slang in Australia and New Zealand, not offensive. Y'all want to act oppressed and shit, but let's face it women are the biggest beneficiaries of DEI. So again, if you want to **EARN** it like with the n-word, that's one thing. I agree with the n-word ban. But cunt is not **NEARLY** as severe as the n-word and it's offensive to **ALL** the other races and minorities that get hate crimed regularly and aren't getting **THEIR** slur words banned. Women y'all be trippin'
