**Comments for Public Posting:** I live in Arleta which is 2.4 min or 8 minutes from Whitman Airport. I have noticed every time I am outside doing yard work there are small aircraft flying low over my home and neighborhood. My plants are developing diseases and dying. I cant help think it may be caused by their pollution. I spent a lot of time and money to keep them from dying. Our yards is a reflection of the neighborhood which everyone tries to maintain nice. Please help. I tried to submit videos/pictures but it doesn't let me. Thank you ??

**Comments for Public Posting:** Dear Councilwoman, I strongly resent your efforts to close Whiteman airport. Your latest stealth political maneuver to limit the sale of leaded airplane fuel at the Whiteman airport is disgusting. This community needs and wants Whiteman airport. It is essential in the lookout for numerous and out of control illegal fire startups, essential in monitoring the local fires and fighting the fires. You have done nothing to stop these fires started by illegals that you enable camping in the Hansen Dam park. You have done nothing to stop the idiots setting off illegal fireworks in Big Tujunga Canyon or the Riverwood area. You show no regard for the fear and anxiety of the Lake View Terrace and Shadow Hills residents that live so close to these fires and have to watch them every minute in case we need to evacuate our animals. Why don't you concentrate on those problems. Whiteman is not a problem. The decrepit, non operable, non registered RV's that line our streets dumping their fecal waste in the street is a huge problem. That is a real environmental issue you have chosen to ignore. Why don't you tackle that problem? Everyone knows the land at Whiteman is a political & real cash cow. We know how much you have set your sights on destroying it. Many pockets including yours will be lined politically & financially with favors and campaign cash from developers salivating at the thought of getting that land. It is clear there is a payoff for you if you manage this. So much for Community First.
