**Comments for Public Posting:** How dare this assembly try to use our tax dollars to encourage the soldiers of another country and government to be able to police and be any type of authority over American citizens. We do not want their militant techniques in our neighborhoods. How is this keeping us Jews safe when you create tensions between us and our community. I tell you do not allocate any of our tax money for this bill . This bill perpetuates Muslim and Jewish hate and is treason. Zionism is not Judaism and AIPAC is not in our best interests. Shame on you all.

**Comments for Public Posting:** As a long time resident of LA and active member of our LA community I am shocked and horrified that this measure was even proposed in the first place, much less made it to a vote. There are not enough words for how bad an idea it is to bring Magen Am, an organization made up of former IDF soldiers who spent their careers brutalizing and murdering civilians, especially women and children, to the streets of LA. This will not in any way make LA a safer place for its Jewish or other constituents - it will do the exact opposite. Bringing armed militants to the streets of LA is such a dangerous and ill-informed decision. As a citizen and taxpayer of LA, the absolute last place I want my hard-earned money going is to bring armed militants into our streets. We have such a strong need for social services in this city - we need to fix our homelessness problem, we need to clean up the trash off our streets, we need to improve our transit and the safety of our roads, and much more. To divert this funding from those important causes that actually improve the lives of LA residents to funding Israeli cops to come to LA is abhorrent. This is shameful. Please make the right decision for the safety and wellbeing of the people YOU represent and do not pass this measure. All of LA is watching to make sure you make the right choice.

**Comments for Public Posting:** The city of Los Angeles has no right and should not under any circumstances higher anyone related to the Israeli defense force. I think it is an outrageous prop proposal by Yaroslavsky to even propose such an idea. Please dismiss this racist thought immediately.
