Comments for Public Posting: Right now, with an unprotected bike path, it is extremely scary to bike on Sunset Blvd. A protected bike path makes it safer for cyclists and less likely that cars are going to strike down cyclists which is obviously beneficial for drivers! It seems like a no-brainer to have the bike path on Sunset Blvd. protected. ESPECIALLY as it can be done with little to no loss of parking and no change in the number of lanes of traffic. My eighty year old mother loves to cycle, but she will only ride her bicycle where she feels safe, and right now that is most certainly not Sunset Blvd. (despite it having a bike lane). Many, many more people would use the bike path if it was protected. And more people riding bikes is great for the health of both the riders and the environment! A protected bike lane benefits the entire community.
