Comments for Public Posting: This Ordinance, if you approve it, effectively excludes all community organizations from the public process in all planning and land use issues. Hearings and Appeals have been our most effective tools in pursuing our goals by helping the City optimize its administration of local land use. I stand with the majority of public comment and Community Impact Statements that object to this proposed Ordinance. I urge you to not forward it further to City Council for final approval without substantial amendments. The fact that it wasn't until last week, in the Technical Corrections, that "the appellant(s)" were added to the parties required to receive mail notice, speaks volumes about the state of this draft ordinance. We, YOU, need more time to allow for proper review and amendments to this ordinance. PLEASE DO NOT APPROVE!!

Comments for Public Posting: Please oppose the 12-0460-S4 motion, a recipe for corruption, which would disempower councils and communities across the city and prevent public input into important public land use matters. How can excluding people from input benefit communities? This is a blatant power grab that will only benefit developers and corrupt municipal leaders who seek to silence communities. This is part of a larger unacceptable historic pattern of attempted silencing by municipal bodies and leaders in Los Angeles. If the systems and procedures of City Planning and Land Use were designed to engage community it might lead to brilliant ideas and developments. You hurt yourselves by excluding us, the very people who pay your salaries. Do better.

Comments for Public Posting: We oppose this action as it excludes real community participation, cultural appreciation, and allows gentrification of our neighborhood

Comments for Public Posting: Please stop giving categorical exemptions to SEQA to developers. People' lives are at stake. Jordan Downs Housing is already experiencing mold in new units. Infrastructure improvements are not being made. It should be lives over profits.
