Council File No: 22-0617

Comments for Public Posting: I strongly urge the City Council to approve the City of Los Angeles' Downtown Community Plan Update and all of the other ordinances associated with it. The plan promotes health by encouraging development within walking distance of transit. As a health legislative analyst majoring in urban studies, I am also concerned about sustainability and a clean environment, which is why the plan's promotion of parks, greenspace and public realm improvements resonates with me. Finally, I believe in the plan's support of affordable housing, which is necessary to ensure that Angelenos of all socioeconomic backgrounds have a clean and decent place to live. Please approve the plan. Thank you for your consideration.
