

Communication from Public

Name: Silver Lake Wildlife Sanctuary

Date Submitted: 08/12/2022 08:55 AM

Council File No: 20-1482

Comments for Public Posting: To our City and our Councilmembers: What an opportunity! A small 'vest pocket' park, already planted with mature trees providing shady relief from our urban heat and offering a breath of fresh air for the local community and natural habitat for birds, pollinators, and urban wildlife. This is an investment worth making, to allow for regular maintenance and possible improvements on a valued community space. We oppose the turnover of public space to private interests and urge the City to reconsider the Maltman street vacation proposal. We stand with Silver Lake Neighborhood Council and LA Audubon in asking that this public green space be forever preserved, retaining its long history as a public right-of-way, for people and wildlife alike. Yours, Silver Lake Wildlife Sanctuary Board Jane Cook
