**Comments for Public Posting:** What was so upsetting is that Democratic Socialist Chair Raman shut down public comment in less than an hour, despite many people still waiting to speak by phone. This is especially concerning when the Democratic left-leaning city council members are repeatedly targeting landlords, Your hostility toward landlords must stop. These are private investments in a free country, not the USSR. Time and again you declaring war and relentlessly going after housing providers in LA must stop. as we struggle to pay property taxes, make repairs, and cover other expenses to provide housing. ."

**Comments for Public Posting:** Your proposed moratorium on evictions (item 33) is only going to disincentivise landlords from renting to people who have suffered from fires. Do you ever use logic for these decisions? Why is it private landlord's job to provide housing??? You did the same during covid and it's not enough people have lost their homes due to fires, you want landlords to lose their homes because of tenants staying for free? Why don't you use our taxpayer money to pay for housing, instead of ripping off other taxpayers (landlords)?
