Comments for Public Posting: I am submitting a General Public Comment for the March 19, 2024 City Council meeting: I'm writing in support of ULA and the critical work it has been funding in the short time it has existed. Please spend all the ULA funds that have come in and continue to come in - and continue ULA spending into the second year and beyond. The citizens of LA, Over 60% of whom are tenants, understand how important ULA is to their well-being and voted YES so that it could be enacted. To date it has provided funding to keep people in their homes through direct support, through provision of attorneys, and other services. Many of the recipients could land up unhoused on LA's streets without this support - and I urge you to support and continue this program as LA voters clearly mandated.
