Comments for Public Posting: No to project homekey at the travelodge in gardena, ca. My elder parents (65,74) live right down the street. Covid, assault, and crime will hurt them more than your typical la resident. My sister lives a few blocks away and is raising a newborn. Crime increase will hurt her and her daughter as well. Theres also an elementary school nearby as well as several daycares. What is the city's assurance to protect the community with an already LAPD resource constrained department that takes over 1.5 hours to answer a 911 call in our area?
