**Comments for Public Posting:** I wholeheartedly support a breeding moratorium for dogs and cats to prevent overpopulation. It's a crucial step in ensuring the well-being of these animals and addressing the numerous issues associated with breeding animals. Overpopulation not only leads to the suffering of countless dogs in overcrowded shelters, but it also places a strain on resources and contributes to the environmental impact associated with pet ownership. Encouraging adoption and supporting spaying/neutering efforts is the ethical way forward. It's our responsibility to protect companion animals, not exploit them for profit or selfish reasons. Let's work together to make sure every dog (and cat) gets the love and care they deserve.

**Comments for Public Posting:** I strongly support a moratorium on issuing new breeding licenses in Los Angeles. City shelters are in crisis - the city needs to take emergency action now to prevent more animals from suffering on the streets and in severely crowded shelters. We need to do more to reduce number of homeless animals and the need for euthanasia by spaying and neutering animals and stopping all new breeding.

**Comments for Public Posting:** Hi can you please stop giving breeding permits. Animal shelters are inundated and need to become the main avenue for pet ownership. Second a lot of these pets can. End up there as well. Please put a moratorium on breeding permits thank you.

**Comments for Public Posting:** Please reform the LA Shelter System. Suspend all breeders licenses until further notice and subsidize spay and neuter fees until this crisis is managed. There should not be killing of adoptable pets. Implement rewards for people reporting legal breeding, fine breeders \$10K and reward reporters \$5k, use the other \$5k to subsidize spay and neuter. We got to get this together. The current system is not just an embarrassment and low vibration, its disgraceful with ill morals. Many shelter salary employees are lazy and lack any passion on seeing these animals exit alive, please provide them with incentives to throw adoption events.
