**Comments for Public Posting:** Good morning Council Members and Council Members Lee and Raman, Please vote to approve Draft 3 of the Housing Element/CHIP Ordinance as presented by the Planning Department and approved by the Planning Commission, without regard to the Exhibit D “options” that would open up single-family neighborhoods to impactful high density housing. The Planning Department in its report clearly states that they have found enough zoning to meet the State’s mandate for housing without the need to rezone our single-family neighborhoods. We can provide increased housing units while still preserving longstanding single-family neighborhoods and protecting the quality of life in all communities within the City of Los Angeles. Sincerely Kendra and Robert Elliott

**Comments for Public Posting:** Re: Southwest Valley Community Plan Please vote to approve Draft 3 of the Housing Element/CHIP Ordinance as presented by the Planning Department and approved by the Planning Commission, without regard to the Exhibit D “options” that would open up single-family neighborhoods to impactful high density housing. The Planning Department in its report clearly states that they have found enough zoning to meet the State’s mandate for housing without the need to rezone our single-family neighborhoods. We can provide increased housing units while still preserving longstanding single-family neighborhoods and protecting the quality of life in all communities within the City of Los Angeles. Thank you for your attention to this matter. We just moved into the neighborhood two years ago, and we hope this will remain the small neighborhood we chose. Thanks, Shira Feinstein
