**ORDINANCE NO.** \_\_\_\_\_

An ordinance amending Article 3 of Chapter XIX of the Los Angeles Municipal Code to regulate the use of disposable foodware accessories.

**WHEREAS**, in the United States billions of unused single-use foodware accessories, including utensils, straws, stirrers, and condiment packets are tossed away annually;

**WHEREAS**, this trash clogs landfills, pollutes our streets and waterways, and adds to the global glut of non-recyclable plastic production;

**WHEREAS**, disposable, single-use foodware accessories and packaging are a major contributor to greenhouse gas emissions;

**WHEREAS**, the City of Los Angeles has a goal of achieving 90 percent diversion of solid waste from landfill by 2025, 95 percent by 2035, and zero trash to landfills by 2050;

**WHEREAS**, the City of Los Angeles Green New Deal sets targets of 50 percent reduction in greenhouse gas emissions by 2025;

**WHEREAS**, an on-request ordinance for foodware accessories will help restaurants and municipalities save money by using less resources and producing less waste;

**WHEREAS**, operators of food and beverage facilities such as restaurants have reported significant waste source reduction with on-request policies leading to as much as 90 percent waste reduction, which in turn also has an economic savings for food service providers;

**WHEREAS**, disposable, single-use foodware accessories, such as utensils, straws, stirrers, and condiment packets contribute to the eight million tons of plastic pollution that enter the ocean, while also contributing to the litter in our communities and in the waste stream that disproportionately burdens our environmental justice communities;

**WHEREAS**, pre-packaged foods that include disposable, single-use foodware accessories are a source of waste as well;

**WHEREAS**, single-use disposable foodware accessories are not recyclable at the City contracted Material Recovery Facilities or compostable in any of the City Green Material Processing Facilities;

**WHEREAS**, the City of Los Angeles seeks to address the environmental concerns by reducing the amount of plastic waste entering our oceans or impacting our communities; and

**WHEREAS**, reducing waste of single-use disposables fits well into the City's goals to reduce waste, increase energy efficiency, promote equity and environmental justice, address the impacts of climate change, and advance a just transition toward a more circular, equitable, and regenerative economy.
