Comments for Public Posting: We have lived on Maltman for over 20 years. Our children have played in this area and we walk by daily. It would be heartbreaking if this was developed! As a longtime resident of this community I am outraged that this public space would be taken out of greed. Our neighborhood could create something wonderful With it and maintain it as a community !

Comments for Public Posting: I support the homeowners on either side of the easement. They have been keeping this city lot up for years. The city is clearly not willing to keep the space as a safe and well-maintained area. Beyond that, even if our neighbors did decide to place housing on this lot – which is not a certainty because of the many limitations of the land - I would support it. We are in a housing crisis, and every neighborhood must make adjustments to respond. Finally, I trust that our neighbors will not make choices that threaten the character of the neighborhood they have lived in for a very long time.

Comments for Public Posting: As a Silverlake resident living on Crestmont, I ask that Slope Park remain a public green walkway. Not only does it serve as a shortcut into the neighborhood, it is also a shady respite from the heat on sunny walks. The hill on which Slope Park sits is a beautiful public space in an area with limited public spaces. I would have hoped the City of Los Angeles would consider expanding public green spaces rather than taking them away for the benefit of private developers. Please allow Slope Park to remain as it has been ever since my family moved to this neighborhood 15 years ago.

Comments for Public Posting: The slope on Maltman is a vital green space in our community that is already underserved by parks. We need to keep it! Please don't give in to profiteers exploiting our public space.
