A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at [empowerla@lacity.org](mailto:empowerla@lacity.org).

The Board approved this CIS by a vote of: Yea(0) Nay(3) Abstain(0) Ineligible(0) Recusal(0)

Date of NC Board Action: 09/06/2023

Type of NC Board Action: For

### Impact Information

Date: 09/24/2023

Update to a Previous Input: No

Directed To: Board of Neighborhood Commissioners, City Council and Committees

Council File Number: 23-0306

Agenda Date:

Item Number:

Summary: The Palms Neighborhood Council supports Council File 23-0306, which relates to establishing a speed hump program for elementary schools, similar to the residential speed hump program. The Council has requested a feasibility study. The Palms NC is supportive of establishing a speed hump program for elementary schools. We are aware of stakeholders who have attempted to enter Vinton Avenue, adjacent to Palms Elementary School, into the residential program but were unable to do so due to oversubscription. The neighborhood would benefit from speed humps near the school. The Palms NC is aware that the residential speed hump program can be particularly difficult to navigate for neighborhoods, like Palms, with many apartment buildings due to the high burden of collecting signatures from the

numerous households on the block. While we are expanding the speed hump program, the City should also revise the household signature requirements in dense neighborhoods for the residential speed hump program.
