Comments for Public Posting: SB684 takes an important step in addressing our climate crisis by making the largest fossil fuel polluters pay their fair share of damage their products have inflicted on California. Without this Bill, California taxpayers will continue to pay for the costs of climate damage while the polluters rake in massive profit. As a California resident and taxpayer I support this important Bill. Thank you.

Comments for Public Posting: We all know whose fault this is. And it's not the individual consumer, that's for certain. But if it was, you can be sure we would be prosecuted to the fullest extent of the law.
