Comments for Public Posting: Project home key in Harbor Gateway - South. This project presents concerns for our community as we hear people will not be vetted and rejected if they have drug addiction or mental issues that may increase crime, theft, loitering, vagrancy, and overall safety. Our area is serviced by LAPD and the closest station is over 15 miles away and 911 calls can take over 1.5-2 hours for any police presence. Additionally, the old travelodge motel on Normandie and 186th is right next to over thousands of residential homes, a block of homes is directly behind this motel. We would like the city to reconsider one of the many motels in other areas in more industrial or commercial zones that will not impact thousands of families.
