Comments for Public Posting: We should be hiring more police instead of cutting back. Crime is on the rise. There are no longer safe neighborhoods. I was burglarized and no one showed up to take prints. The police are so short handed. Police presence is a major deterrent. The state has raised our taxes. Just where is all this money going? I live in one of the highest taxed areas and we have one police car IF they are not called elsewhere to cover another incident. Every crime committed will be in the city council's hands. Come elections the people will know who on the council voted to cut the police budget instead of raise it. We are watching you! This city used to be the shining star in the state. I no longer recognize it.

Comments for Public Posting: Dear city clerk council, These shelters are the only thing keeping these animals alive, feed, safe, and sheltered. Don't take that away from them by cutting funds, let these people continue doing their best in providing stable resources for these animals. There are other things to be focused on. Thank you

Comments for Public Posting: I wanted to express my support of continued funding for The Cultural Affairs Department at Barnsdall - a hub that is so incredibly important to our community. On a personal level, the youth art classes have been such a gift to our family and the families around this area. Not only are they affordable but the teachers are incredibly dedicated. It will be devastating to lose these classes. It truly makes no sense to have spent taxpayer's money on the renovation of this beautiful space to then make it inaccessible to the community. Please save Barnsdall! Our community needs spaces like this more than ever.
