Comments for Public Posting: This area needs to be safe for the children going to this preschool. There have been times where transients are right outside where the kids play either yelling at anyone passing by or even defecating.

Comments for Public Posting: As a retired classroom teacher and a former volunteer at the Lumbini Child Development Center(LCDC), I strongly urge the Council to approve of the resolution to to add the LCDC which is adjacent to Tokyo Villa to City Ordinance 41.18 enforcement. It is essential to the security of the students, teachers and staff, as the ordinance includes enforcement related to any encampments and those transients who may loiter around schools within a 500 ft. radius of the school.
