Subject: Report Back on State of California Department of Housing and Community Development Homekey Program Notice of Funding Availability and Recommendations to Acquire 10 Homekey Properties

SUMMARY

This report outlines recommendations related to the State of California Department of Housing and Community Development (state) Homekey Program (Homekey) Notice of Funding Availability (NOFA), including funding awarded and/or reserved for the City of Los Angeles (City) and the Housing Authority of the City of Los Angeles (HACLA), and the necessary recommendations to close on all approved acquisitions by December 30, 2020.

The City applied, with HACLA as the lead applicant, for a state Homekey Program match of \$133,444,175 to acquire 16 properties with 842 units and \$11,791,500 in operating subsidies. To date, the City and HACLA have secured \$108,241,772 acquisition awards or reservations for 14 properties and \$10,029,000 in operating subsidies. One (1) property had to be removed from consideration due to appraisal issues. The remaining property is on the state's waitlist. The City and HACLA plan to acquire a total of 15 properties that will house the Homelessness Roadmap target population: persons experiencing homelessness residing within 500 feet of a freeway overpass, underpass or ramp; those who are 65 years of age or older, and those who are otherwise vulnerable to COVID-19. The state has urged HACLA and the City to close on the acquisitions as soon as possible. Based on the HACLA's due diligence schedule, we expect that all state funded properties will close no later than December 9, 2020. The City Administrative Officer (CAO) issued a Request for Proposals (RFP) on September 28, 2020 to select qualified owner/operators for the City-controlled sites. The CAO will report back on the results of the RFP in November.

In addition, this report recommends up to \$20 million to allow the Volunteers of America Los Angeles (VOALA) to purchase a site in Council District 9 that will provide up to 400 beds, once the

rehabilitation is completed.

BACKGROUND

On July 16, 2020, the State of California Department of Housing and Community Development issued a Notice of Funding Availability Homekey Program for approximately \$600 million of grant funding, \$550 million from the state's direct allocation of the federal Coronavirus Aid Relief Funds (CRF) for acquisition and \$50 million state's General Fund to provide initial operating subsidies, to expand the inventory of housing for people experiencing homelessness or at risk of homelessness and impacted by COVID-19. Of the \$550 million for acquisition match, the state set-aside \$161.5 million as the allocation for the applications from the Los Angeles County Region. The Homekey Program provides up to \$200,000 per unit for acquisition costs, with the first \$100,000 not requiring a local match; the next \$50,000 requiring a one-for-one match; and the last \$50,000 requiring a two-for-one match. Therefore, any project needing the full \$200,000 is required to demonstrate a local match equal to \$150,000.

On August 13, 2020, the City, with the Housing Authority of the City of Los Angeles (HACLA) as the lead applicant, applied for \$133,444,175 in state match for acquisition and \$11,791,500 in operating subsidies for 16 properties with a total 842 units. Five (5) of these properties were designated as HACLA properties, which HACLA will own and operate and the remaining 11 were designated as City properties. One (1) of the City designated properties was removed from consideration due to appraisal issues, leaving a total of 15 properties for state consideration.

Homekey NOFA Results to Date

The state was oversubscribed in all regions for Homekey funding requests and added an additional \$200 million in CRF dollars to meet the demand. HACLA and the City have been successful in securing match awards for acquisition for 12 properties and funding reservations for two (2) for a total of \$108,241,772. The state has also awarded the City and HACLA \$10,029,000 in operating subsidies for 12 properties: three (3) HACLA-designated; and nine (9) City designated properties. The remaining property is on the waitlist and may still receive a state match and an operating subsidy.

HACLA Real Estate Services

HACLA is conducting the due diligence on all of the properties. HACLA contractors and consultants have or are completing, title reports, and appraisals with the City's Department of General Services' (GSD) assistance, as well environmental assessments and physical needs assessments. HACLA is also working with Los Angeles Department of Building and Safety (LADBS) to ensure each property has the proper occupancy permits, meet minimum Americans with Disabilities Act (ADA) requirements and obtains the necessary alteration permits. HACLA is engaging an architect/engineer to develop the architectural renderings for the required life safety and accessibility alternations. This will facilitate the immediate efforts to conduct any necessary rehabilitation prior to occupancy to meet the Homekey requirement of substantial occupancy within 90 days after acquisition. HACLA will acquire the sites on behalf of the City and manage the sites until the City selects the owner/operator for each of the 10 sites.

This report recommends up to \$4.5 million to cover the costs of the grant management, real estate services and property management services provided by HACLA through December 30, 2020, as outlined in the Professional Services Agreement between the City and HACLA.

Properties to be Acquired

The sites that HACLA is acquiring on the City's behalf are outlined in Table 1 below. Each property will be utilized for interim housing with the appropriate services provided for the Homelessness Roadmap target population. The respective Purchase and Sales Agreements for these properties include various contingencies, including due diligence receipt of Homekey financing, and Mayor and Council approval. The physical needs assessments have confirmed that all properties are in good condition.

Pursuant to the Homekey NOFA requirements, the properties are primarily vacant, with little rehabilitation requirements and could be readied for occupancy or substantially occupied (50%) in 90 days from the date of acquisition. Two (2) of these properties, the Solaire and Howard Johnson hotels are Project Roomkey sites and will remain occupied. Although the projects will as interim housing, there must be a connection through the Continuum of Care program that demonstrates a coordinated exit strategy for occupants.

As most of the appraisals are still being finalized, the CAO recommends that up to \$37,683,868 be appropriated to acquire these properties.

*Site is on the State waitlist for funding.

The average cost per unit is \$196,790 for the purchase of these properties, with the state match the cost to the City is \$70,306 per unit (excludes alternations and operating costs).

All 10 of the City-controlled properties are motels/hotels that will be operated as interim housing for up to five (5) years, a minimum of three (3) years, and then converted to permanent housing. On September 28, the City Administrative Officer (CAO) issued a Request for Proposal (RFP) to select owner/operators for these sites. The CAO will report back on the results of the RFP in November, including the specific rehabilitation and operating costs for each site.

HACLA will acquire all of the sites on behalf of the City and transfer ownership to the selected owner/operator. In order comply with state Homekey regulations, protect the City's investment, and ensure the sites are operated for the intended use, the City will require each owner/operator to sign a Promissory Note (Note) for the appraised value of the property, and record of a Deed of Trust and a Regulatory Agreement through escrow as part of the transfer of title to each Owner/operator. The Deed of Trust will secure amounts due under the Note, and authorize the exercise of remedies against the property for any breach of the Note or the Regulatory Agreement including a Regulatory Agreement restricting use of the property to interim or permanent supportive/affordable housing for fifty-five (55) years of project operations, first for use as interim housing, and for the remainder of the term as interim or permanent/affordable housing, depending on agreed-upon plans for future use of the property between the Owner/operator and the City.

Sites to be Acquired by HACLA

HACLA is acquiring the five (5) properties outlined in Table 2 below. HACLA will cover the match, closing costs and rehabilitation for these sites.

Table 2 HACLA Sites

#	Site	CD	Units	Asking/Appraisal Price	Homekey Match	HACLA Match
1	NOHO Best Western	2	70	\$21,000,000	\$13,061,816	\$7,938,184
2	Super 8 Canoga Park	3	52	\$11,772,051	\$8,257,350	\$3,514,701
3	Martel	4	11	\$4,475,000	\$2,200,000	\$2,275,000
4	Parthenia	6	41	\$16,400,000	\$8,200,000	\$8,200,000
5	Orchid Suites	13	40	\$16,103,951	\$8,000,000	\$8,103,951
	Total			\$69,751,002	\$39,719,166	\$30,031,836

Other than Martel and Parthenia, which are multi-family properties, the other properties are hotels/motels. HACLA plans to convert the hotels into permanent units within 12 months and use project-based vouchers to support the sites' operations. The Super 8 Canoga Park will remain as interim housing for up to 18-24 months. The tenants for all of these sites will be the Homelessness Roadmap target population.

Services and Operating Costs

The selected owner/operator will be responsible for operating an interim housing program at the awarded site(s) for a minimum of three (3) years, with a maximum of five (5) years. These services may be provided by the selected owner/operator directly or through partners or subcontractors. The City will provide services and operating funding for a maximum of five (5) years. The City expects the total cost of interim housing program client services and building operations to range between \$55 and \$85 per room per day. The City has received an operating subsidy match for nine (9) of the properties.

The Selected owner/operator will ascribe to the principles of Housing First, Trauma-Informed Care, and Harm Reduction, all evidence-based approaches to effectively serve the homeless population in these properties. This report recommends reserving up to \$22 million in Emergency Solutions Grant - COVID funds be reserved to cover the estimated operations costs not covered by the state for the first two (2) years of operations (through June 30, 2022) for these 10 sites, and the Super 8 Canoga Park site. The CAO will report on the recommended amount for each site in the owner/operator RFP report back.

Alterations and Improvements – Funding for Accessibility Life Safety Upgrades

The selected owner/operator will have to initiate the necessary life safety and accessibility alternations immediately. The City will provide funding for alterations with the \$30 million ESG - COVID approved in the first Homekey report dated, August 7, 2020. The final estimates will be included in the owner/operator RFP report back.

At the time of ownership transfer, HACLA expects to provide permits for the property's change of use from transient occupancy to residential use as well as architectural renderings for the required accessibility alterations as proposed by the Los Angeles Building and Safety Department (LADBS). Each interim housing site must comply with the minimum accessibility standards as defined by California Building Code (CBC) Chapter 11A and 11B and the Americans with Disabilities Act, Title II: 10 percent of units will be equipped with mobility features; and, Four (4) percent of units will be equipped with communication features.

In addition, developments shall adhere to either the Uniform Federal Accessibility Standards (UFAS) standards, 24 C.F.R. Part 8, or HUD's modified version of the 2010 ADA Standards for Accessible Design (Alternative 2010 ADAS), HUD-2014-0042-0001, 79 F.R. 29671(5/27/14) (commonly referred to as "the Alternative Standards" or "HUD Deeming Memo"). Accessible units shall, to the maximum extent feasible and subject to reasonable health and safety requirements, be distributed throughout the project and be available in a sufficient range of sizes and amenities consistent with 24 CFR Section 8.26.

If the subject property is unoccupied at the time of purchase, the selected owner/operators will be required to complete alterations immediately, and not more than 90 days after acquisition. If the property is occupied as a Project Roomkey site, alterations must be completed within 90 days of acquisition as occupants transition to permanent housing, to ensure that occupants are not displaced as a result of the alterations.

Under the CAO's contract with the Los Angeles County Department of Health Services (DHS), Brilliant Corners has been able to provide real estate services for the City's interim housing sites. This report recommends that \$117,500 from the \$30 million ESG-COVID reserved for rehabilitation (Report, dated, 8/7/20) to allow Brilliant Corners to monitor the accessibility and life safety alternations at Homekey sites for compliance with the applicable standards and document completion according to approved plans.

Property in Council District 9

Council Motion (C.F. 20-1008 – Price- O'Farrell) directed the CAO to determine if the site at 6800 Avalon Blvd, Los Angeles, CA in Council District 9 is suitable for interim housing. Volunteers of America Los Angeles (VOALA) is leasing this site and rehabilitating it for interim housing. VOALA goal is to develop a multi-service service center, which includes beds and navigation, laundry, showers and medical services. Phase I of this project creating 98 beds has already been completed. VOALA received \$1,742,400 in Proposition HHH Facilities funds for this purpose. The remaining phases will be completed in September 2021. At completion, the site is expected to have between 375-400 beds. We recommend funding VOALA to purchase the site, which would be more cost effective than continuing to lease the site. As such, we recommend that up to \$20 million for the purchase and closing costs, contingent upon the final appraisal for the property. The VOALA is committed to closing on the purchase prior to December 30, 2020.

The CAO will work with the City Attorney to determine the appropriate documents to record against the property and whether a service repayment loan agreement is appropriate, to protect the City's investment. The CAO will report back on any necessary rehabilitation or operations funding needed for this site.

FISCAL IMPACT

There is no impact to the General Fund as a result of the recommendations in this report at this time. All of the recommendations in this report will be funded with CARES Act funding.

FINANCIAL POLICIES STATEMENT

The recommendations in this report comply with the City Financial Policies.
