Comments for Public Posting: It's unreal that after the last couple of years we are HERE. We all heard the tapes. And for those of us who actually sat through the grueling HOURS on zoom of the last redistricting process (yep, that's me) the time for change is NOW. If you cannot take bold steps to align our city with the rest of the country and grow this council we will see your commitment to keeping the status quo. Sadly when Krekorian was made President of this council, AFTER SAID TAPE SCANDAL, I lost most hope that we would see any meaningful change. Double the size of city council YESTERDAY and establish a completely INDEPENDENT redistricting commission that is outside the influence of this scandal riddled city council.

Comments for Public Posting: Downtown needs its own council member. CD14 contains neighborhoods that have nothing in common with DTLA, and it's very clear that our current council member has less interest in downtown (other than the part that connects to Boyle Heights) than other parts of his district.
