Comments for Public Posting: Why after this report is the Committee not recommending any changes be implemented? Why is the move to "note" and "file?" It's ridiculous to have this report produced and these excellent recommendations, and not have the *Transportation* Committee recommend changes for LADOT and LAPD. Please do more to improve safety for our communities, and not be another impotent committee that wastes space, time and money of Angelenos while people are dying on these streets. There are so many folks out here, organizing, using their unpaid time to help get things like this passed and for people to become aware of these bills so we can encourage their adoption. These least elected can do is to make the motions meaningful. Signed, the people of Los Angeles who are so tired of a nonfunctioning and corrupt city.
