

## MOTION

The City of Los Angeles is currently engaged in numerous legal cases related to homelessness. Pending outcomes of these cases will impact policies that the Council is currently working on and having the most up-to-date information is crucial. The City Council can not continue to act swiftly in addressing the urgent need across the City without this information. In order to garner the City Council's input and to enhance the Council's understanding of the legal landscape and our approach to addressing the homelessness issue, it is essential that real time updates be regularly provided during City Council meetings.

**I THEREFORE MOVE**, that the Council request from the City Attorney, with support from the City Legislative Analyst and the City Administrative Officer, deliver a quarterly report outlining the present status of all ongoing litigation related to homelessness.
