Council File No: 23-0917

Comments for Public Posting: I am a CD14 resident. I ask that this motion to ban the demolition of all rent controlled and multi family properties be amended so that it is extended to all of Lincoln Heights 90031, 90033, and 90032. Why did Councilmember De Leon gerrymander the CD14 boundary and claim part of Lincoln Heights if he is not going to equally protect the health, safety and welfare of the entire Lincoln Heights neighborhood, the oldest neighborhood in the city? Leaving this neighborhood out of this demolition ban will only push and allow more inequitable development in Lincoln Heights that harms its community, including long time residents, historic buildings, and legacy businesses. It is not just Boyle Heights that needs these protections. Please amend Councilmember De Leon's motion to include Lincoln Heights, so this historic neighborhood gets equal protection.
