Council File No: 15-0989-S47

Comments for Public Posting: The City must prepare an EIR for this ordinance that would exempt facilities developed for the Olympics from planning requirements. The facilities will have environmental impacts and the City Council should be aware of what those impacts will be before approving the project. Of particular concern are the greenhouse-gas emissions from these projects. The City should require all facilities built for the Olympics to be net-zero, so they won't exacerbate global warming.
