Council File No: 20-1469-S1

Comments for Public Posting: This Council File measure should be more precise. It should make a distinction as to what is considered to be a temporary closure: Is it one day, more than one day? Are the same noticing requirements to be required for a very temporary measure or only for "major" work. And what defines major work? Additionally, there might be a suggestion that a website be created with all the requested information. Finally, when a council file is opened and a councilmember requests a report on something, there should also be a requirement that the estimate of the cost of doing the requested work be included. If there are not funds available to do the work, then a tradeoff of one initiative must be made to make possible the new one. What will this cost and what is the most cost-efficient way to meet the goals?
