Comments for Public Posting: The idea of placing these gigantic LED billboards throughout LA is outrageous! This is not the way for metro to raise money. Adding to our light pollution that is proven to be a health hazard, creating driver distractions along our freeways and major thoroughfares is unacceptable. Nothing like coming up with a scheme to add to our ever-increasing urban blight. No amount of doublespeak by metro that this is a communication tool can obscure the reality that these are advertising billboards.
