**Comments for Public Posting:** Dear Councilmembers, It would be inaccurate to say the the fossil fuel industry bear 100% responsibility for the Palisades and Eaton Fires. It would also be inaccurate to say that they bear 0% responsibility. So there is a number in between that they should pay damages for. SB 684 and AB 1243 are designed to figure out their proportionate responsibility and make them pay the appropriate amount. The fossil fuel industry has knowingly lied and obfuscated about their role in the climate crisis for decades. They have a moral obligation to help pay for some of the damages that their own scientists predicted. Please support a resolution in favor of these critical bills. Thank you.

**Comments for Public Posting:** I am writing to ask the City Counsel to support this motion. Big Oil should pay its fair share. Thank you.
