**Comments for Public Posting:** While this reward is not a bad thing, we have many instances that a reward should be considered as important. The Encino Encampment fire on 6/24/24 had 11 firemen injured and one had to have his ear reattached. They found a grenade in the encampment and the bomb squad has yet to report about more explosives. The encampment was empty by the time LAFD got there. As there is a large encampment on the River just east of the bus overpass which was home to the man who was pulling down cables on telephone poles near Zelza, people worry that the same danger has moved to this area. I think a similar reward should be requested and the encampment be disbanded.
