

## Communication from Public

**Name:** Shame on the city council

**Comments for Public Posting:** It is absolutely shameful that the city council under Paul Krekorian is choosing to elevate some voices and push others down. This is a move straight out of the Nury Martinez handbook. First you removed telephonic comment, now your goon is limiting what orgs can present. Do you want a process that restores the public trust or do you want a process that lets you cling to power? It's quite clear what you have chosen. All your pretty words are meaningless if your actions do not back them up. Spare me your soliloquies about decorum and respect. You do not respect the public, you do not respect fair process, you do not respect the hard work of Angelenos who want a better city.
