**Comments for Public Posting:** “I support the Draft #3 of the Housing Element/CHIP Ordinance, as presented by the Planning Department, without Exhibit D “options” that would open up single-family neighborhoods to rezoning. The Planning Department in its report clearly states that they have found enough zoning in other areas to meet the State’s mandate for housing without the need to rezone our single-family areas.”

## Communication from Public

**Comments for Public Posting:** I fully support increasing density allowances across the city, including Shadow Hills. Shadow Hills is one of the few neighborhoods within just a few miles of job centers, including the Burbank studios and Burbank airport, where we should be building more housing to address the issues of long commutes and the decades of failing to build an appropriate number of residential units to house our population. I urge the council to reject the NIMBY-esque comments of the entitled homeowners who are depriving our city of sorely needed new housing stock and allow for greater densities throughout Los Angeles.
