**Comments for Public Posting:** I support CD1 Council Member Hernandez's motion to put the LAART gondola project on hold at the City level, and to do a comprehensive, objective traffic study for area surrounding Dodger Stadium. This is long overdue and should have been included as part of LAART's incomplete Final EIR. Please support this motion so that we may have a fair understanding of how best to tackle traffic and transportation issues around the Stadium and what makes the most sense fiscally for the City, County, and taxpayers. The Stadium is surrounded by residential neighborhoods, so the average daily needs of residents should be taken into account in this objective Transportation Study. Thank you. Sincerely, Tany Ling, resident of Chinatown.
