Comments for Public Posting: It is important that our community zoning remain as is. Ysabel Jurados plan to build high density properties is one sided and does not consider the hard working people of El Sereno that live here because its not like other congested neighborhoods. Further, what is being done to clean up the homeless encampments and illegal RV parking. Why aren't the parking restrictions upheld. Get these people off the streets and in public housing, they need help. Lastly, someone needs to do something about the graffiti. There has to be someone that can engage with gang leaders and help them understand that defacing their own neighborhoods is like stomping on the hearts of the hard working people that live and work here.
