**Comments for Public Posting:** RV parking on Franklin Ave below Griffith Park continue to cripple our neighborhood. We have begged CD4 for help but they don't seem to have any interest to help or properly address this issue. This particularly impacts the residence that have their garage on Franklin and have to back out onto street in order to exit. With the presence of these oversized vehicles we have zero visibility of oncoming traffic and they can't see us. We have had multiple accidents occur here with 2 cars being totaled in our driveway already. LAPD officer for the area wrote a letter to DOT and they added some red curb as the result but this doesn't solve the problem as the vehicles continue to park. DOT said CD4 would have to implement additional measures like placing no oversized vehicle parking, restricting hours or placing parking limits, or permit to residence in area, etc ... since they were told not to give up additional parking space. I've sent CD4 countless photos, videos, and many of my neighbors have written to city as well. In fact I've an RV parked behind my house as I'm typing this. What is it going take for the city to take action? We located in one of the most beautiful parts of the city which is a tourist destination due Griffith park which looks unsightly from these run down vehicles. However, this is a "safety" issue for us. Will the city finally act once we have a fatal accident?!!
