

MOTION

In 2028, the City of Los Angeles will host the Olympic Games for the third time in its history. As a City, we want to put our best foot forward by ensuring that the Los Angeles of summer 2028 reflects the world-class city we know LA can be. Thanks to the investments the City made for and since the 1984 games, the City is well-prepared in terms of venues, housing for the athletes, and lodging for tourists. However, as outlined in the LA 2028 Legacy Streets Improvements Plan (Council File # 20-1004), additional investments in the streets and sidewalks in the neighborhoods surrounding the Olympic venues are necessary. The Bureau identified Tier 1, 2, and 3 investments that require a varying level of effort to implement. The city should invest the resources necessary in order to implement the Bureau's plan.

I THEREFORE MOVE that the Department of Public Works (DPW) report back within 90 calendar days with an implementation plan for the recommended Tier 1, Tier 2, and Tier 3 improvements outlined in the LA 2028 Legacy Streets Improvements Plan.

I FURTHER MOVE that the aforementioned report should identify Tier 1 and Tier 2 improvements such as tree planting, sidewalk repair, bus shelters, and street lighting repair that can be folded into the city's annual work programs in order to complete the improvements by 2028.

I FURTHER MOVE that DPW identify which Tier 3 improvements would be competitive for grant funding and include a timeline for applying for these funds in their report.
