## SUMMARY

The Los Angeles Police Department (LAPD) is seeking retroactive approval to accept a \$6,499,179.21 grant award for the 2022 Officer Wellness and Mental Health Grant program from the State of California Board of State and Community Corrections (BSCC) for the period from July 1, 2022 through December 1, 2025.

## BACKGROUND

The OWMHG Program, established in the California 2022 Budget Act (Assembly Bill 178, Chapter 45, Statutes of 2022), provides \$50 million for city and county law enforcement agencies for the purpose of improving officer wellness and expanding mental health resources. Per the Statutes, the funding may be used for any of the following:

- Establishing or expanding officer wellness units;
- Establishing or expanding peer support units;
- Services provided by a licensed mental health professional, counselor or other professional that works with law enforcement;
- Expanding multiagency mutual aid programs focused on officer wellness and mental health; and,
- Other programs and services that are evidence-based or have a successful track record of enhancing officer wellness.

All eligible law enforcement agencies received a portion of the funds based on the number of eligible officers described in Penal Code Section 830.1. This grant is restricted to programs and services to support peace officers, as defined by Section 830.1. Supplanting is strictly prohibited for all BSCC grant funds. In accepting the grant award, the Department was issued a check in the amount of \$6,499,179.21 from the State Controller's Office. This amount was temporarily deposited to the Police Department Grant Fund No. 339 for safekeeping. With Council approval, the LAPD plans to transfer the funds to an interest-bearing account, which is allowed by the grant. The earned interest will be considered as program income and will be used to supplement the Officer Wellness Reimbursement Program.

The grant will enable LAPD to spend up to \$4 million to upgrade all its fitness rooms in approximately 30 Area stations and facilities throughout the City. This funding will be used to purchase new equipment such as treadmills, elliptical machines, StairMaster® stair-climbing

machines, various strength training machines, free weights, massage chairs, and blood pressure monitors. Additionally, \$2,499,179.21 of the grant will be used to implement an Officer Wellness Reimbursement Program. The LAPD's Behavioral Science Services Division will compile a variety of wellness activities that are evidence-based and have a successful track record of enhancing officer wellness. Such activities may include yoga classes, massage therapist services, body scans, and Jiu-Jitsu martial arts defensive training. Each officer will be able to engage in one of these activities and select his/her preferred service provider. After completion of each activity, sworn personnel will be required to complete a questionnaire and provide proper documentation for reimbursement.

### **FISCAL IMPACT STATEMENT**

Approval of the recommendations within this report will have no additional impact to the General Fund and will provide for the expenditure of the 2022 Officer Wellness and Mental Health Program grant award of \$6,499,179.21, for the grant performance period from July 1, 2022 through December 1, 2025. No matching funds are required for this grant.

### **FINANCIAL POLICIES STATEMENT**

The recommendations provided in this report are in compliance with the City's Financial Policies in that all grant funds will be utilized for grant-eligible activities.
