Comments for Public Posting: To our Honorable City of LA Councilmembers: My name is Samantha Guerrero, and I'm standing in support of garment workers to advocate for the protection of LA's garment jobs and the preservation of our industry in the Fashion District. The garment manufacturing industry in Los Angeles is unique and thrives on its strong business cluster in the Fashion District. These businesses depend on being close to suppliers, customers, and specialized services that make their work efficient and competitive. This isn't just a matter of convenience—it's about preserving an interconnected ecosystem that supports thousands of workers and businesses, currently, and the historic presence in our City. If we lose dedicated manufacturing space in the Fashion District, it's not just factories that will close. The impact would ripple through the entire supply chain, threatening jobs for warehouse workers, wholesalers, pattern makers, screen printers, and others who rely on the garment industry's presence here in LA. Our industry is ready to lead on sustainability, creating ethical, responsible practices that provide good jobs right here in the community. We need the City's support to continue this work and to balance housing and economic development so workers have jobs to support their families and pay for housing in the communities they live and work. After years of hard work and advocacy from garment workers & many community partners and local businesses, in addition to the Planning Department, we urge you to adopt the DTLA Community Plan. The plan is crucial to maintaining an industry that has called Los Angeles home for generations and continues to provide vital jobs in our city. Thank you for your consideration!

Comments for Public Posting: To Whom it May Concern, We need to protect the unique character of our equestrian and animal friendly neighborhood. I have animals and horses and am about to have a daughter that I would love to have grow up in a nature friendly, animal friendly environment. Developers are not welcome here. I support the Draft #3 of the Housing Element/CHIP Ordinance, as presented by the Planning Department, without Exhibit D “options” that would open up single-family neighborhoods to rezoning. The Planning Department in its report clearly states that they have found enough zoning in other areas to meet the State’s mandate for housing without the need to rezone our single-family areas. file number 21-1230-S5.

Comments for Public Posting: Buenas tardes Concejales, Mi nombre es Carmen Gutierrez y vengo de CLEAN Carwash como defensor de los derechos de los inmigrantes y los trabajadores, en solidaridad con los trabajadores textiles de Los Ángeles. Hoy les insto a proteger los empleos textiles y preservar una comunidad que ha sido esencial para la historia y la economía de esta ciudad. La industria de la costura proporciona miles de empleos a inmigrantes trabajadores y trabajadores con salarios bajos que dependen de este trabajo para mantener a sus familias. Para muchos, con décadas de experiencia en este campo, el trabajo textil es un salvavidas, que no solo sostiene a las familias sino que también fortalece nuestra economía local. Cuando se pierden empleos en el sector textil, esto afecta no sólo a trabajadores individuales sino a vecindarios enteros. Estos son nuestros vecinos, nuestros amigos y parte del tejido de Los Ángeles. Dependen de este trabajo para pagar el alquiler, llevar comida a la mesa y enviar a sus hijos a la escuela. La pérdida de empleo aquí tendría un efecto dominó devastador, impactaría las economías locales y dejaría a las familias con opciones limitadas en un mercado laboral que ya es desafiante. Los trabajadores de la confección están preparados para liderar la industria hacia un futuro más ético y sostenible, pero necesitan políticas que protejan su capacidad para trabajar y vivir en esta ciudad. Después de años de esfuerzo y colaboración de todas partes, aliento al Consejo a adoptar el Plan Comunitario de DTLA, asegurando que estos trabajadores esenciales puedan seguir siendo una parte vital de nuestra comunidad. Gracias.

Comments for Public Posting: We must maintain the integrity of our neighborhood as a single family, equestrian friendly zoning. These neighborhoods are becoming less and less common in Los Angeles and need to be protected. Developers are not welcome here. Thank you.
