Comments for Public Posting: I oppose this project. It looks like the city is doing everything in its power to disregard valid points raised by the community and push this massive building forward as it is doing everywhere else in the city, and in a very similar fashion as the Nela Plaza and all other hearings I have attended, The public at large objects and the city disregards. It is shameful. Here you have another luxury style building that no one in this particular neighborhood cannn afford to buy or rent. You have 42 trees being removed. The public is demanding an EIR.
