Hello,

I am writing to appeal the decision on file #240002 , [3701 Glenridge Dr, Sherman Oaks, 91423](#).

Having heavy trucks going up and down Glenridge Drive is dangerous, a hazard and a nightmare for the residents of our street. The street already is in poor condition, and it is very steep and unstable. The "project" has already been rejected yet the company keeps on changing its LLC name and coming back for approval. That is sooo unethical and wrong. Would you like to have heavy trucks going up and down your street for months and months? Again, the proposal is both dangerous and unethical. The area is also a wildlife habitat zone, though I doubt they care about that, as a resident, I do.

There is no place for the trucks to turn around...so they'll have to go up the street backwards...an absolute safety hazard and extreme nuisance if you are in front or behind them in your car...or walking. What happens on Wednesday garbage pickup day? How will we get our garbage collected if other large trucks are in the way of the City garbage trucks? There are lots more reasons to reject this terrible project! Please reject it! Rejecting it is the right thing to do.

Thank you!

Eric Mokover
