**Comments for Public Posting:** Please please please support the motion, and legalize single staircases. We need to make it easier to build new housing. Having more housing will benefit la city and its neighboring cities

**Comments for Public Posting:** This is a no brainer. Single stair case apartments are built all around the world and have proven to be as safe or safer than double stair cases in study after study. On top of that they make building housing more affordable. There is so much we need to do to make it easier to build housing, and this is something that will make that happen. Sign it and let LA build. Thank you.
