**TO:** The Honorable Board of Police Commissioners

**FROM:** Chief of Police

**SUBJECT:** APPROVAL OF NON-MONETARY DONATION

### RECOMMENDED ACTION

1. That the Board of Police Commissioners APPROVE the Department's Report and TRANSMIT to the Mayor and City Council for ACCEPTANCE of the following non-monetary donation valued at \$201,141.12 for the Technical Investigation Division.

**DONOR:**

Los Angeles Police Foundation  
Ms. Dana Katz, Executive Director  
633 West 5<sup>th</sup> Street, Suite 960  
Los Angeles, California 90071  
(213) 489-4636

**PURPOSE:**

Digital Interview Rooms  
(#2023-059)

**VALUE:**

\$201,141.12

### DISCUSSION

This donation will provide Digital Interview Room Capture Stations for the 62 interview rooms located throughout Department facilities. Many of the audio/video recording systems currently in use within the rooms are outdated and no longer serviceable. The new equipment will capture evidentiary grade video, have a full audit trail to ensure chain of custody for the original recording, and be fully networkable. Approval of this donation will ensure that investigators have access to interview rooms with reliable recording systems. The purpose and capabilities of the interview rooms remain unchanged. All newly acquired audio/video recording systems will be reported per the Department's Acquisition and Annual Reporting of Certain Information Systems and Technologies policy.

The Los Angeles Police Foundation is an independent, not-for-profit organization that provides critical resources and vital support to the Los Angeles Police Department (LAPD). From essential equipment and state-of-the-art technology to specialized training and innovative programs that would otherwise be unfunded, the Foundation provides funding that directly improves public safety, impacts officer readiness, and enhances the quality of life of all members of the community. As the largest source of private support for the LAPD, the Foundation is passionately dedicated to ensuring that Los Angeles remains America's safest major city. Since being established in 1998, the Foundation has invested tens of millions of dollars in hundreds of LAPD initiatives that promote excellence, expand capabilities, strengthen neighborhoods and

create opportunities for at-risk youth. These actions are grounded in the beliefs that a safe city is a strong city and that together we can make a difference.

The donation has been submitted in accordance with Section 5.467 et seq. of the Los Angeles Administrative Code, which provides for the receipt and acceptance of donations to the Department.

If you have any questions, please contact Police Administrator Tatiana Garcia, Technical Investigation Division, at (213) 473-0630.

Respectfully,

MICHEL R. MOORE  
Chief of Police

## 2023 GRANT APPLICATION

Grant Number **2023-059** (office use only)

Date: April 7, 2023 Amount Requested: \$ 201,141.12

Contact Name(s): Tatiana Garcia

Department/Unit: Police/Technical Investigation Unit – Electronics Unit

Mailing Address: 555 Ramirez Street – Space 212, Los Angeles, CA 90012

Phone Number: (213)473-0630 Fax Number: (213)473-3115

E-mail Address:  
N1782@lapd.online

Name of Program/Equipment requesting funding for: Digital Interview Room Capture Stations

Provide a brief description and the need for the program/equipment (use additional paper if needed):  
The Police Department has interview rooms located in most Department facilities. In FY2015/16, the Department purchased replacement audio/video recording systems to upgrade one interview room within each geographic Area and certain specialized divisions to ensure each location had at least one reliable recording system. The recording systems in many of the rooms are beyond lifecycle replacement and are so outdated that they are no longer serviceable when they fail. This request is for funding to upgrade additional interview rooms at Department facilities and any incidentals accrued during the equipment upgrade. This will ensure that a minimum of two interview rooms with a working recording system are available when detectives are conducting investigative interviews. These systems capture evidentiary grade video and have a full audit trail to ensure chain of custody for the original recording.

Has this program/equipment previously been requested through the city budget? ☒ YES ☐ NO

If yes, please list the most recent date of submission and the result: September 2020, and September 2021

If no, please explain the reason why it was not submitted: N/A

What objectives will be accomplished if the funding is granted?

The proposed system has built-in redundancies to ensure recordings are not lost. The system has a full audit trail and preserves the original, unalterable recording. Finally, the system is fully networkable to enable interviews to be viewed remotely and allows recordings to be transmitted to a central server across the network.

How many officers will be impacted with this grant?

Unknown; however, the critical first step is to ensure that investigating officers have access to interview rooms with reliable recording systems. The long-term goal is to add the interview rooms to the Department network which will eliminate the requirement for officers to transport the original recording and book it into the TID Electronics Unit Evidence Storage at Piper Tech.

How will the community be impacted by this grant?

The investment in resources will decrease system downtime in rooms that have the new systems installed. It will also increase the availability of functioning interview rooms for investigating officers. If the requested resources are not received, the Department will continue to have fewer interview rooms available as the older equipment fails. These systems capture evidentiary grade video and have a full audit trail to ensure chain of custody for the original recording.

Describe the short-term outcome and long-term impact you anticipate within the Department and in the community it serves as result of this grant.

The short-term impact is that investigating officers will have access to interview rooms with reliable recording systems. The long-term impact is to add the interview rooms to the Department network which will eliminate the requirement for officers to transport the original recording and book it into the TID Electronics Unit Evidence Storage at Piper Tech.

How can the Foundation evaluate success if the funding is granted? (# of people served, objectives reached, surveys, etc.)

This request utilizes technology to improve the integrity of the interview recordings and improves workload issues. By installing a reliable, updated system, service calls requiring the response of a technician from the Electronics Unit will be reduced. The system also allows for remote troubleshooting, which will reduce system downtime and the workload for the technicians. Once the system is fully networked, recordings can be booked through the network.

Please list or attach an itemized list for expenses or a quote from equipment manufacturer on vendor's letterhead. See attached quotations.

Has your commanding officer approved this request? ☒ YES ☐ NO

Name of commanding officer: Tatiana Garcia

Signature of commanding officer: 

For questions, comments, or concerns, contact Jacqui McAndrews at (213) 489-4636 or email [jacqui@supportlapd.org](mailto:jacqui@supportlapd.org).
